[Adobe Photoshop And Illustrator](#)

For a professional, both of them are having their own place of utilization Graphics Format 2.. Today, a normal user prefers to use this tool instead of Illustrator Illustrator software is not having any feature of modifying an existing image.. Photoshop is a widely used tool to modify any image or make your creativity live.

2. [adobe illustrator cc](#)
3. [adobe illustrator online](#)

Both this software are unique in terms of their functionality, but even they are used for the same purpose.. Photoshop as well as Adobe Illustrator, both can be used to edit an image Photoshop also provides you the option to create new icons, but if you need to create big, dynamic logos for any website, print design or billboard, then you must go with Adobe Illustrator.. On the other hand, Photoshop works on pixels, so the quality drops as you zoom the picture.

adobe illustrator
